

Mark Scheme

Team: M110

Date 10/11/2021

Marker Michael Crisp

Assessment	Mark
Summary of system development. - Top level overview would help before subsystem detail. Generally could be more precise.	5/6
Testing - Good testing detail. Could be more numeric. - Consideration of other specifications is good	5/6
Discussion of Project management approach. .Interesting use of combined SW/Elec team leader, could discuss if this led to difficulties between mech and sw/elec. Suggestion of better management/communication needs to be backed up with how.	5/6
Root cause analysis/ Recommendations Nice observation of flexibility vs sticking with decisions – how to find balance though? Did team structure contribute?	5/6
Report Quality Well presented.	6/6
Total	26/30

Guidelines:

6 – very good

5 – satisfactory

4 – minimally acceptable

1-3 not normally awarded, clear underperformance

Standard credit is approximately 20/30.
